## **Continuation Sheet (PTO-303)**

Continuation of 11. does NOT place the application in condition for allowance because: Applicant asserted that the combination of Hudetz and Anderson fails to teach the claimed invention. In particular applicant argued that Hudetz and Anderson fails to teach providing demographic information about a consumer to a product manufacturer by utilizing data packet information that transfers the information inquiry to the manufacturer, or by utilizing information transferred within the web page request, or by employing a Domain Name Service to translate Internet Protocol mapping information. The examiner respectfully disagrees. Applicant is referred to the previous office action mailed on November 13, 2007.
